

# Gestion des utilisateurs

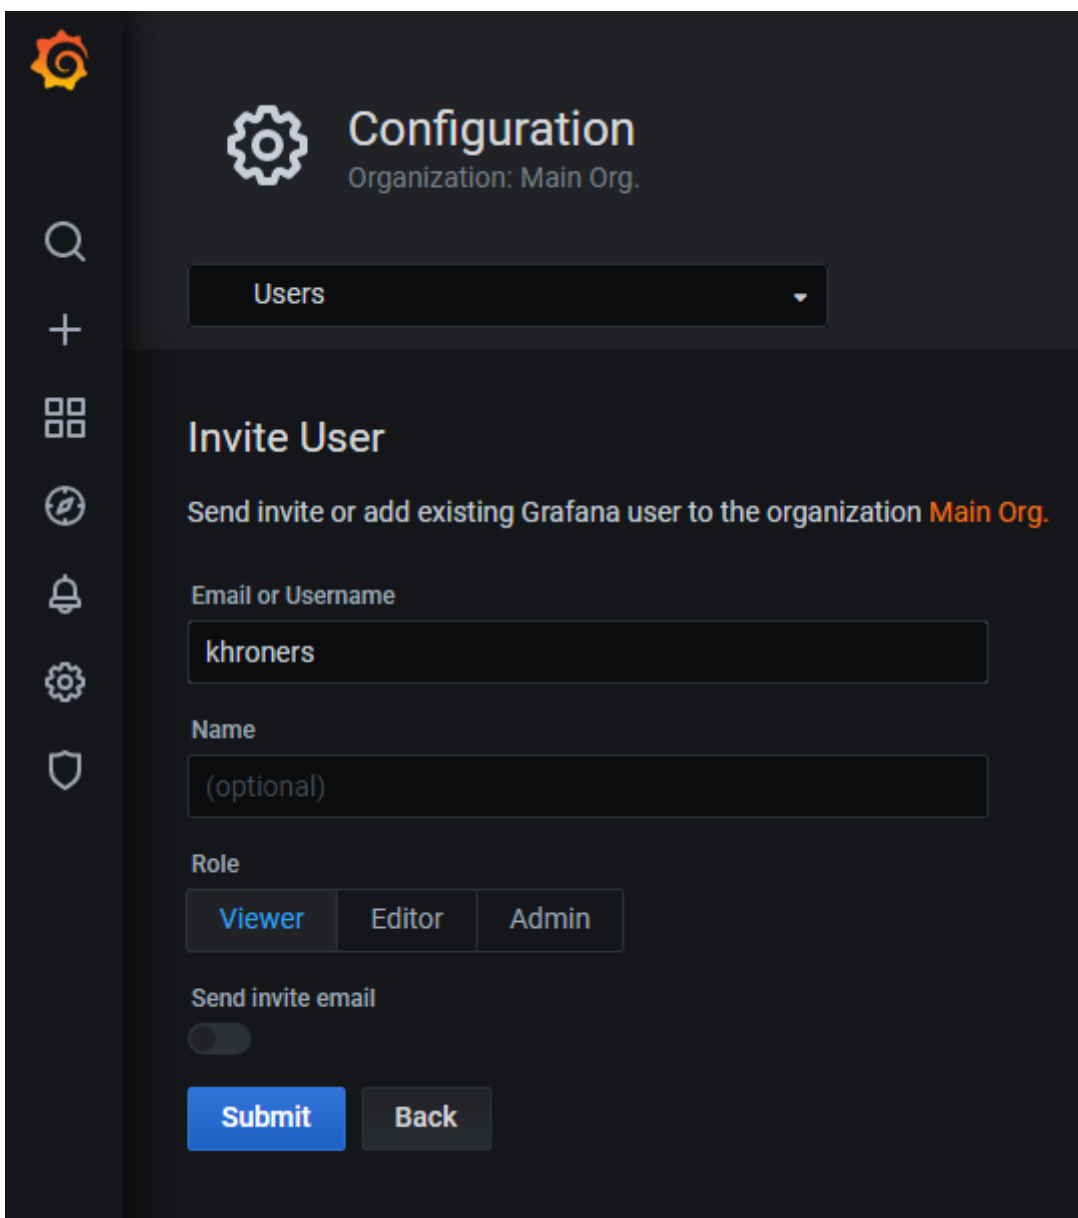

On peut ajouter des utilisateurs ici.

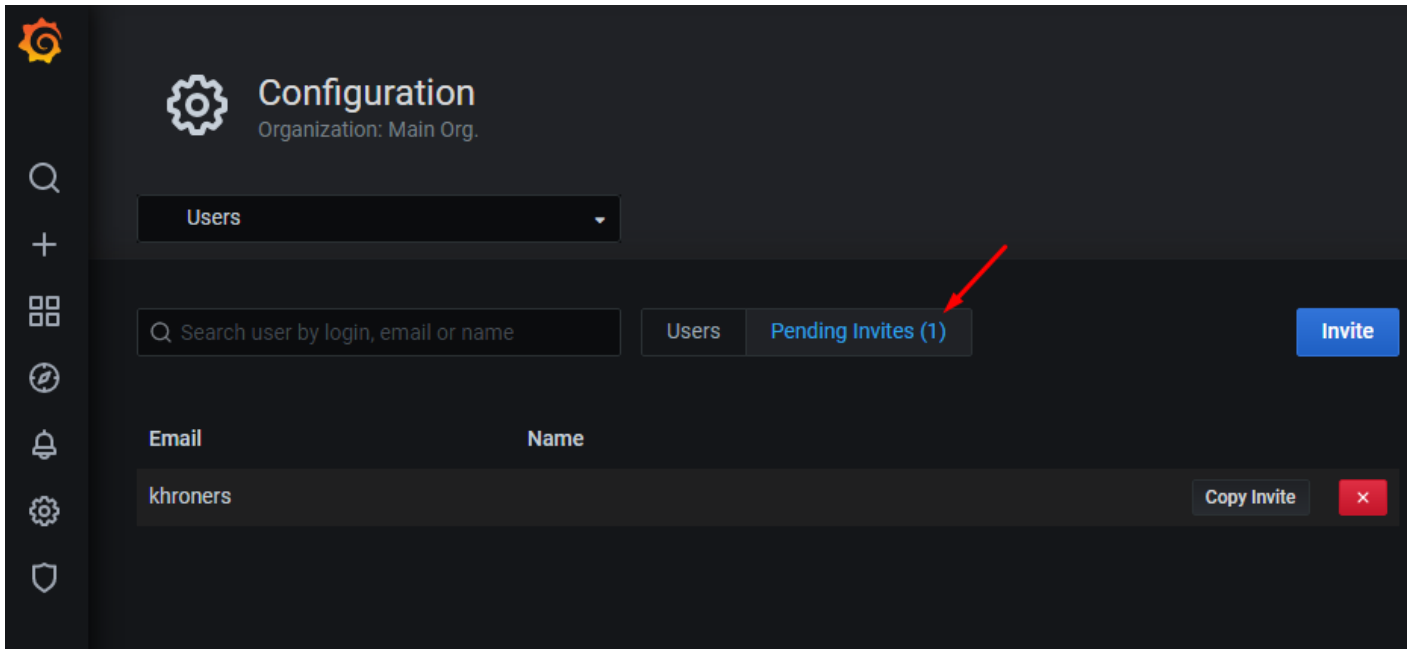

The screenshot shows the 'Configuration' page for 'Main Org.' with a 'Users' dropdown menu. Below the menu is a search bar and an 'Invite' button. A table lists users with columns for Login, Email, Name, Seen, and Role. The 'admin' user is listed with email 'admin@localhost', seen '< 1m', and role 'Admin'.

Login	Email	Name	Seen	Role
admin	admin@localhost		< 1m	Admin

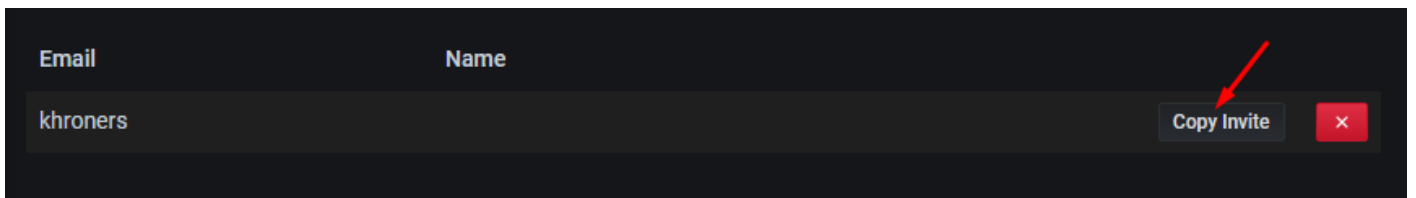

The screenshot shows the 'Invite User' form in the 'Configuration' page for 'Main Org.'. The form includes fields for 'Email or Username' (filled with 'khroners') and 'Name' (optional). Below these are role buttons: 'Viewer' (selected), 'Editor', and 'Admin'. There is a 'Send invite email' toggle switch and 'Submit' and 'Back' buttons at the bottom.

Ici, il s'agit d'un Viewer. Il ne peut pas modifier les tableaux de bord, mais peut les voir. Très utile pour donner accès à la supervision aux techniciens.

On copie le lien d'invitation, et on le colle dans la barre d'URL.

On définit ensuite le mail, le mot de passe et le nom d'utilisateur.

## Login / Invite

Register your Grafana account

Hello khroners.

*admin* has invited you to join Grafana and the organization

Please complete the following and choose a password to accept your invitation and continue:

Email

email@example.com

Name

Name (optional)

Username

Username

Password

Password

Sign Up

On peut également changer les permissions des tableaux de bord selon les rôles.
